OBJECTIVE

Motivated Computer Science student with knowledge of C++, OOP, DBMS, and Machine Learning, seeking an internship opportunity to contribute to meaningful software projects while gaining practical industry experience. Interested in improving problem-solving abilities and understanding real-world system development. Eager to learn from experienced professionals and grow in a collaborative and structured work environment.

EDUCATION

Jaipur Engineering College and Research Centre

2023–2027

Bachelor of Technology (Computer Science and Engineering) - CGPA – 8.45

Jaipur, Rajasthan

VIDYASTHALI PUBLIC SCHOOL

2023

Senior Secondary Education– 84.8%

Jaipur, Rajasthan

VIDYASTHALI PUBLIC SCHOOL

2021

Secondary Education– 71.4%

Jaipur, Rajasthan

SKILLS

Programming Languages: C++, Python

AI/ML: Python, NumPy, Pandas, ML Algorithms, Data Preprocessing

Computer Fundamentals: Data Structures and Algorithms, Operating Systems, OOPS, DBMS, DCN

Operating Systems & Platforms: Linux

Tools: Git, GitHub

Soft-Skills: Teamwork, Communication, Time management, Punctuality

PROJECTS

Developed functional University Management System | HTML, CSS, Bootstrap, jQuery, PHP, MySQL

- Managed student fees, attendance, and test records through a dynamic web-based interface.
- Implemented interactive UI and efficient backend operations for seamless data handling.

Developed Customer Churn Prediction System | Python, Flask, Scikit-learn, HTML, CSS

- Built an ML-powered web app that predicts telecom customer churn probability based on factors like tenure, contract type, monthly charges, and service usage.
- Implemented personalized retention recommendations and a prediction history dashboard for proactive customer management.

Developed Resume Screening System | Python, Flask, Scikit-learn, HTML, CSS

- Built an ML-powered web application to analyze and rank resumes based on job descriptions using NLP techniques and similarity scoring.
- Implemented automated skill extraction, custom stop-word filtering, and a matching algorithm to improve candidate-job relevance and streamline the hiring process.

ACHIEVEMENTS

- Secured certification in **Fundamentals of Deep Learning** from **NVIDIA**.
- Participate in the Innovation Hackathon – ICI FEST 2025 (**24-Hour** Hackathon).
- Completed **Data Analytics** Job Simulation by **Deloitte**.

CERTIFICATIONS

NVIDIA Certified in Fundamentals of Deep Learning

Oracle Certified Data Science Professional (OCI 2025)

Online Summer Internship – Web Designing using PHP & MySQL
