OBJECTIVE

Final-year Computer Science student at JECRC with a 8.45 CGPA, specializing in Machine Learning and full-stack web development. Seeking an internship/full-time role to apply hands-on experience in Python, Flask, and Sci kit-learn to build impactful, data-driven solutions. Certified by NVIDIA and Oracle, with proven project experience in ML-powered applications

EDUCATION

Jaipur Engineering College and Research Centre

2023– 2027

Bachelor of Technology (Computer Science and Engineering), CGPA: 8.45

Jaipur, Rajasthan

VIDYASTHALI PUBLIC SCHOOL

2023

Senior Secondary Education – 84.8%

Jaipur, Rajasthan

VIDYASTHALI PUBLIC SCHOOL

2021

Secondary Education – 71.4%

Jaipur, Rajasthan

SKILLS

- **Programming Languages:** C++, Python
- **Web Development:** HTML, CSS, Bootstrap, j Query, PHP, Flask
- **AI/ML:** NumPy, Pandas, Sci kit-learn, Machine Learning Algorithms, Data Preprocessing
- **Tools & Platforms:** Git, GitHub, Linux, MySQL
- **Soft Skills:** Teamwork, Communication, Time Management, Punctuality

PROJECTS

University Management System | HTML, CSS, Bootstrap, j Query, PHP, MySQL

- Built a web-based system managing fees, attendance, and test records for 500+ students across 3 core modules using PHP, MySQL, and Bootstrap.
- Reduced manual data handling by 40% through optimized SQL queries and a responsive UI.

Customer Churn Prediction System | Python, Flask, Sci kit-learn, HTML, CSS

- Trained a classification model on 7,000+ telecom records achieving 85%+ accuracy in predicting customer churn using Sci kit-learn and Flask.
- Reduced customer retention planning time by 30% via an automated recommendation engine and prediction history dashboard.

Resume Screening System | Python, Flask, Sci kit-learn, HTML, CSS

- Built an NLP-based resume ranking engine using TF-IDF scoring to match resumes against job descriptions, processing 100+ resumes in under 10 seconds.
- Automated skill extraction and filtering, reducing manual screening time by 60% across 20+ job categories.

ACHIEVEMENTS

- Secured certification in **Fundamentals of Deep Learning** from **NVIDIA**.
- Competed in Innovation Hackathon – ICI FEST 2025, developing a working prototype within a 24-hour sprint.
- Completed Deloitte's Data Analytics Job Simulation, applying data analysis and business insight reporting skills.
